

CAREER OBJECTIVE

Computer Science undergraduate with experience in web development, AI-powered applications, and problem solving. Seeking internship opportunities to apply software engineering skills and contribute to real-world projects.

EDUCATION

BE, Computer Science & Engineering — National Engineering College 2024 – 2028
CGPA: 7.64 / 10

TECHNICAL SKILLS

Languages : C, C++, Java, Python, SQL (PL/SQL)
Web : HTML, CSS
Concepts : OOP, DSA, DBMS
Platforms : LeetCode, HackerRank, GitHub
Areas : Web Development, IoT, AI-powered Apps
Tools : Git, GitHub, VS Code

PROJECTS

Personal Expense Tracking System Dec 2025 – Mar 2026
• Developed a personal finance app for recording and monitoring daily expenses and income.
• Implemented expense categorization, budget tracking, and spending analysis via visual reports.

Personal Portfolio 2025 – Present
• Built a personal portfolio website to showcase projects, skills, and achievements.
• Designed with a clean, responsive UI highlighting technical expertise and work history.

PAST PROJECTS

Projects I previously built and contributed to — these reflect hands-on experience across different domains.

AI Interview Practice Platform Dec 2025 – Mar 2026
• Built an AI-powered platform simulating interview sessions based on user-selected roles and skills.
• Delivered instant feedback and performance analysis to improve interview readiness.

Remote Classroom for Rural Colleges (SIH25101) Sep 2025 – Dec 2025
• Built a web platform connecting rural colleges with remote instructors through virtual classrooms.
• Enabled online lectures, attendance tracking, and collaborative learning for quality education access.

Restaurant Analysis — Food Quality & Quantity Rating Mar 2025 – May 2025
• Designed a restaurant review platform for rating food quality, quantity, and overall dining experience.
• Leveraged community-driven ratings to help customers make informed dining decisions.

Smart Trolley (IPR Project) Dec 2024 – Feb 2025
• Created a smart shopping solution with product tracking and automated billing to reduce checkout time.

Online Exam Management System Sep 2024 – Nov 2024
• Developed a web-based examination platform with question management, auto-evaluation, and result generation.

CERTIFICATIONS — SWAYAM NPTEL

• Introduction to Industry 4.0 & Industrial Internet of Things Jan – Apr 2026

- Getting Started with Competitive Programming
- Introduction to Internet of Things
- Joy of Computing Using Python
- Technical English for Engineers

Jan – Apr 2026

Jul – Oct 2025

Jan – Apr 2025

Aug – Oct 2024

ACHIEVEMENTS & EXTRACURRICULARS

- Solved 1700+ programming problems on Skillrack and earned 900+ medals.
- Solved 90+ problems on LeetCode with an 86% acceptance rate.
- Consistent learner in programming, web development, and problem solving.
- Interests: Drawing and Sketching.
